PRESENT APPOINTMENT (NOV 2002 ONWARDS)

Associate Professor and Consultant GI and HPB Surgeon, Gastrointestinal Surgical Oncology, Tata Memorial Hospital, Parel, Mumbai 400 012, INDIA.

RESIDENCY (1994 – 1997)

I did my general surgical residency in Lokmanya Tilak Medical College and Municipal General Hospital which is recognized as one of the leading medical and post-graduate training schools in the country. I had the opportunity to do a wide variety of general surgical work initially under supervision and later (1996 –1997), independently. The trauma unit of this hospital is situated where expressways and railways converge into the metropolis of Mumbai (Bombay) with a population of 12 million. It is the busiest and best-organized trauma center in the country. I worked in this unit as a senior surgical trauma registrar for 6 months during my residency.

POST MASTER OF SURGERY EXPERIENCE

1. I was working with **PROFESSOR DR. V. N. SHRIKHANDE** and **DR. A. G. NANDE** from **August 1997 to October 1998** and from **October 2000 to March 2001** in **SHRIKHANDE CLINIC** and in the **DEPARTMENT OF GENERAL SURGERY, BOMBAY HOSPITAL INSTITUTE OF MEDICAL SCIENCES, MUMBAI (BOMBAY)**.

SHRIKHANDE CLINIC, established in 1977, is a well-known referral center for management of Gastrointestinal problems. It attracts observers and trainees from all over the country.

BOMBAY HOSPITAL, established in 1949, is the largest multi-speciality private hospital in India with a capacity of 930 beds. It is recognized as a post-graduate training institution since 1992.

During this period, I was actively assisting in surgeries of the Pancreas (Puestows, Whipples, pancreatic necrosectomies), gall bladder, common bile ducts and the small and large bowel. I also assisted in Laparoscopic procedures such as cholecystectomies, inguinal hernias, funduplications, and appendectomies and learnt to perform Diagnostic Upper GI endocopy

- independently. I also continued my general surgical work in management of hernias.
2. I worked with **DR. PRAFUL DESAI**, former director and chief of surgical oncology of TATA MEMORIAL HOSPITAL, from **March 2000 to July 2000** in **Oncosurgery**, in BOMBAY HOSPITAL. In this department, I was trained in breast surgery, lower esophageal surgery and gastrointestinal surgery.
 3. From **April 1st 2001 to July 31st 2001**, I was working as clinical fellow of **DR. P. JAGANNATH** in Gastrointestinal Oncosurgery, LILAVATI HOSPITAL, Mumbai. In this department, I was actively assisting Dr. Jagannath in major GI and hepato-biliary-pancreatic surgeries.
 4. Since **August 1st 2001 to July 31st 2002**, I was working as a **clinical fellow** with **DR. P. JAGANNATH**, consultant surgeon, GI service, Department of Surgical Oncology – TATA MEMORIAL HOSPITAL, exclusively in **Gastrointestinal and Hepato-biliary-pancreatic cancer surgery**.

INTERNATIONAL EXPERIENCE

1. **Internship training in Gastrointestinal and Hepatobiliary-pancreatic surgery at the MAYO CLINIC, ROCHESTER, MINNESOTA, USA, in September 1993 under PROFESSOR D. M. NAGORNEY.**
2. **From November 1998 to February 2000**, I was a fellow in the **Department of Visceral and Transplantation Surgery, University of Bern, Inselspital, Bern, Switzerland**. I worked under the supervision of **PROFESSOR M. W. BUCHLER** and **DR. HELMUT FRIESS**. Prior to further pursuing clinical surgery, I wanted to develop a scientific research background. In this department I worked as a fellow on various aspects of pancreatic disease such as **pancreatic cancer, chronic pancreatitis and acute pancreatitis**. **My main research topic involved tropical chronic pancreatitis**. In my 15-month stay there, I learnt various advanced techniques of molecular biology such as RNA extraction, Northern

Blotting, RT-PCR, Western Blotting, immunohistochemistry and *In situ* hybridization. I was also attending the operation theatres and emergency duties. In addition to various gastrointestinal surgeries, I mainly observed and assisted in a number of pancreatic surgeries (Whipples pancreatoduodenectomies, Duodenum preserving pancreatic head resections) for which this department is world renowned.

3. **In August and September 2002**, I was a **clinical fellow** in the **Department of General Surgery, University of Heidelberg, Heidelberg, Germany**, for 8 weeks. I worked under the supervision of **PROFESSOR M. W. BUCHLER** and **DR. HELMUT FRIESS**. In this period, I was regularly assisting in major Biliary Pancreatic surgeries. Furthermore, I was actively assisting in a variety of colorectal surgeries.

4. **In 2005**, I was the **Warren Fellow of the IHPBA** in the **European Pancreas Center and the Department of Surgery of the University of Heidelberg, Germany**. In this time, I was working on the XIAP gene in pancreas cancer and gained further experience in complex pancreatic resectional surgery.

CLINICAL RESEARCH ACTIVITIES

1. **Co-investigator** in the **Pfizer** study in Bern, Switzerland, to investigate the penetration of **Fluconazole** (diflucan) into normal pancreatic tissue and necrotic pancreatic tissue of acute necrotizing pancreatitis patients **(1999)**.
Principal Investigators: Professor Markus Buechler / Dr. Helmut Friess.
2. **Co-investigator** in the **Pharmacia / Pfizer** study in Tata Memorial Hospital, Mumbai, India, to investigate the role of **low molecular weight heparin** (Fragmin) in thromboprophylaxis in colorectal cancer surgery patients **(2003)**
Principal Investigator: Dr. Parul Shukla

*** Please refer to the last page for a complete list of clinical research trials**

DISSERTATION

1. Submitted a thesis titled **“COMPARATIVE STUDY OF STAMM’S GASTROSTOMY AND PERCUTANEOUS ENDOSCOPIC GASTROSTOMY”** to the **University of Bombay** (Mumbai), May 1997.
2. Submitted a thesis titled **“Pancreatic Cancer and Chronic Pancreatitis: Recent Advances in Molecular Biology and Surgery”** to the **University of Heidelberg**, Germany, 2005. This thesis was awarded **Magna Cum Laude (Excellent)** grade by the University of Heidelberg, January 2006.

TEACHING EXPERIENCE

During my residency I was actively involved in the teaching of medical students in their final year and also of the nursing staff. I regularly continue to take clinics for surgery residents and Nursing staff of Tata Memorial Hospital.

Teaching faculty for laparoscopic GI surgery and staplers in GI surgery at the Ethicon Institute of Surgical Education (EISE), Mumbai, India. I regularly take courses for participants there.

Interview Board Member for DNB candidate (Surgical Oncology) selection, Prince Aly Khan Hospital, February 2009.

Launched www.pancreaticcancerindia.com in July 2008. This website has attracted more than 5,00,000 hits within 1 year and aims to updated lay people and professionals regarding diverse aspects of pancreatic and periampullary cancer.

Dr. S. V. Shrikhande*List of projects as Principal Investigator & Co-Investigator**

155	A phase III, randomized open label study of IV cotecarin vs temozolomide or carmustine (BCNU) or lomustine (CCNU) in Patients with glioblastoma multiforme that has progressed / recurred after alkylator-based (NEO) adjuvant chemotherapy, protocol EDOAGL-8725-001	CI
160	Phase - II Clinical Trial on DRF-7295 in patients with Advanced/Metastatic Colorectal Cancer (Protocol Code DRF-7295/11/04)	CI
175	Are Treatment Outcomes Predetermined? An Observational Study Using Astrological Prediction	CI
176	Assessment Of ER / PR Receptor Status In Gall Bladder Cancer	CI
183	Matrix metalloproteinases and their inhibitors in colorectal carcinoma	CI
188	Evaluation Of Diagnostic Impact And Specificity Of Chromosomal Translocation By Reverse-Transcriptase Polymerase Chain Reaction In Pediatric Soft Tissue Tumors	CI
201	Assessment Of Circulating Cancer Cells In Solid Tumors And Their Prognostic Implication	CI
209	Comparison Of Intubation Through The Standard Laryngeal Mask (LM) With The Intubating Laryngeal Mask (ILM)	CI
218	Comparison of the LMA classic with the new disposable softseal LMA in spontaneously breathing adult patients	CI
222	First line Bevacizumab and chemotherapy in metastatic cancer of the colon or rectum (first BEAT phase IIIb trial)	CI
231	Grestin (G-CSF, DRL) mobilized peripheral blood progenitor cell (PBPC) transplantation (Allogeneic or Autologous) (Study cone No: Graft/DRL/2003 N1)	CI
259	Sphincter preservation with surgery following neo-adjuvant radiotherapy with local boost in low lying respectable rectal cancers.: A Phase II study	CI
262	A comparison between D1 and D2 lymphadenectomy in Gastric Cancer: A prospective randomized controlled trial	CI
307	Trial TH-CR-302 – A Randomized Phase 3 Study of the Efficacy and Safety of Gulfosfamide Compared with Best Supportive Care in Metastatic Pancreatic Adenocarcinoma Previously Treated with Gemcitabine	CI
330	VEG105424: An Open Label, Pharmacokinetic Study of the Safety and Tolerability of Pazopanib in Combination with FOLFOX 6 or CapeOx in Subjects with Colorectal Cancer	CI
344	Analysis of global post-translational modification patterns of histones for Exploitation as Diagnostic and Prognostic marker in patients with gastric cancer	Principal Investigator
353	Enhanced recovery programme for patients undergoing surgery for gastrointestinal cancers	CI
368	A case-control study to investigate risk factors for gall bladder cancer	CI
372	Does Anemia Increase Plasma Clearance of Anti neoplastic Drugs- A Proof of Principle Study	CI
376	Effect of pre-operative vitamin D-3 on tumour characteristics in patients with operable ;periampullary cancer: A randomized controlled trial	Principal Investigator
399	A phase 3, double-blind, randomized, parallel-group, Placebo-controlled study of intravenous (IV)	CI

	Methylalntrexone Bromide ((MNTX) in the treatment of post-operative ileus (POI)	
430	Risk factors for colorectal cancer in India: INDOX Case-control study	CI
450	A phase II study to evaluate the role of conformal hepatic radiation in unresectable hepatocellular carcinoma and hepatic metastases	CI
466	Identification of post translational modifications / variants of histones for exploitation as biomarker in patients with gastric cancer	Principal Investigator
487	The risk of hepatocellular carcinoma in patients with chronic liver disease of viral etiology and iron deficiency	CI
